MEMORANDUM FOR THE RECORD

SUBJECT: ASD(I) US/Soviet Net Assessment Study

1. As a follow-up to my conversation of last week, I talked with Mr. George Steeg this morning to see if he had gotten any guidance from Dr. Hall regarding subject study. Mr. Steeg indicated that he had been instructed by Dr. Hall to continue to work toward development of a preliminary report, based on the information he had available. It is Hall's belief that organization of the material into an understandable form will aid in bringing into focus those areas that require future work.

2. Mr. Steeg estimates that the preliminary report should be completed sometime late in April, at which time discussions with Community representatives are anticipated on those aspects that require further work.

Dear Larry:

LCDR Bob Stiger, USN and I would like to thank you for the very informative and enjoyable day spent at NISC. We think considerable benefit is derived for the Intelligence Community Staff to become better acquainted on current Community activities--the SIC meeting provided this opportunity. The subjects introduced were both interesting and provocative intelligence problems. We were sorry that more time was not available to continue fruitful discussions.

While the visit to NISC was very useful, I would like to make one request. At your convenience, would you please send to me a NISC organizational chart with the names of the principal managers.

Yours Truly,
